## PROFESSIONAL EXPERIENCE

### Chief Technology Officer (CTO)

**Electrodomèstics Candelsa, S.A. // December 2016 - Now**

- CTO and IT Director, leading a 12 people team and reporting directly to the General Manager. I am responsible for defining the technical strategy of the company, according to my vision and experience within the eCommerce sector and IT consultancy experience.

### Chief Technology Officer (CTO)

**Deporvillage.com // February 2016 - December 2016**

- As CTO and IT Director I was leading a technical team of 12 people and reporting directly to the CEO.

### Enterprise Architecture Manager

**Privalia.com // March 2010 - February 2016**

- Technical leader of all Privalia group, a top leading store in Europe and South America, with high levels of traffic and high availability environments, with more than 20 millions customers worldwide.
- As Enterprise Architecture Manager I was a key role for the company to know, select and integrate all technologies, according to the requirements of every project requested to the IT department, leading the conception, design and development phases of all IT projects.

### Lecturer - University Professor

**La Salle Barcelona // October 2014 - September 2015**

- In addition to my role as Enterprise Architecture Manager at Privalia, I joined the professors team of the Master in High Performance Web Programming, where the students are able to learn all the major and most important technologies used within complex web applications.

### IT Consultant

**Coritel (Accenture group) // June 2008 - March 2010**

- IT Consultant specialized on SAP PI and SAP XI ecosystem, working on strategic projects for international clients such as Deutsche Bank, SaraLee and Grupo Damm, reporting to the IT Manager.

### Web Developer

**Universidad Autònoma Barcelona // April 2005 - June 2008**

- Web development of several University websites.

## RECOMMENDATIONS

*"Rubén is high committed, hard-working and technically strong. He can design and build solid technical solutions aligned with business needs and timeframes. He manages his team based on example and leadership."*

Ricard G. (CTO at Privalia)

*"I highlight his huge value as an architect of applications, his ability to manage and motivate his team and an absolute commitment to the company. Rubén has achieved many challenges in a top leading e-commerce company, with a high level of demand and high technological complexity."*

Ferran C. (PMO at Privalia)

*"His strong knowledge, significant experience and rational intuition were incredibly useful solving architectural tasks, while politeness, responsibility and friendly way of communication made him pleasant person to work with."*

Yuriy N. (Software Architect at Privalia)

# MAIN PROFESSIONAL SKILLS

---

## Personal core values

Highly committed person, oriented to results, responsible, methodical and resolute. I love team working environments.
